No More War: War Is Not The Answer

Bernie Sanders on the U. S. war in Iran :
“Stop This War Immediately...”

Watch on YouTube:
www.youtube.com/watch?v=FW2SkUeEMDM

When a bird lands on the podium during a rally in Portland, Oregon, Bernie Sanders exclaims, what this little bird is trying to tell us is
“No More War.”

DemocracyNow.org
Amy Goodman and Mike Prysner of the Center on Conscience and War

The Center on Conscience and War reports that the organization has received a massive increase in inquiries from soldiers seeking to submit conscientious objector applications. Mike Prysner, the executive director, cites a “shift in consciousness” among young people in the U. S., spurred by the Gaza genocide and the military is made up of young people in the United States.

There are never wanting, some persons of violent and undertaking natures, who, so they may have power and business, will take it at any cost.

- Francis Bacon (1561-1626) Of Envy

Earth's Greatest Enemy is a new documentary by filmmaker and journalist Abby Martin examining the U.S. military as the world's biggest and most unaccountable environmental polluter.

International Conference on Algae and Sustainability 2026

24-26 July 2026 | Nanchang, China

International Society of Photosynthesis Research

Algae Power for fuel, food and fertilizer!

An International Conference on Algae and Sustainability will present a comprehensive review of the latest research on innovative applications for creating a greener nontoxic future. Biofuels made from microalgae could provide a future solution for independence from fossil fuels. Algae can be used for food, fuel, fertilizer and many other necessities.

U.S. Department of Energy Report: Energy 101 | Algae-to-Fuels

One of the fuel sources of the future is algae, small aquatic organisms that convert sunlight into energy and store it in the form of oil. Scientists and engineers at the Energy Department and its national laboratories are researching the best strains of algae and developing the most efficient farming practices.

How Algae Could Change The Fossil Fuel Industry

Algae is one of the most powerful and accessible energy sources. When dried algae is ground into a powder and refined, oil can be extracted from it. The result is nearly identical to traditional gasoline, but with far more benefits.
